

Metal Exports Inc.

About Us

Metal Exports is an experienced metal fabricator and a recognized export house with over 30 years of expertise in manufacturing and supplying high-quality steel products. Our offerings include construction products such as **foundation bolts, construction stakes, washers, cut rebars, and threaded rods** for the construction industry.

With stringent quality checks, including material testing, surface quality control, and dimension verification, we ensure flawless products. Our robust infrastructure includes facilities for **hot-dipped electroplating, galvanizing, threading machines, and hydraulic presses**. This ensures that every product leaving our facility meets the highest quality standards, designed for durability and performance in demanding environments.

Our global operations include a manufacturing facility in India equipped with state-of-the-art technology and a distribution warehouse in the United States. This combination allows us to provide cost-effective production while ensuring efficient logistics, timely deliveries, and rigorous quality control.

At Metal Exports, we take pride in our customer-centric approach. Whether it's standard products or custom fabrication tailored to unique specifications, we work closely with our clients to deliver solutions that exceed expectations.

Our Strengths

- Highly skilled professionals
- Well-equipped manufacturing facilities
- Tested quality products
- Global production and distribution capabilities
- Custom fabrication to client specifications
